I am a young and motivated IT professional. An honest and friendly person, I like to set goals for myself, which I will achieve. Good listening and communication skills I have a creative mind, always up for new challenges and a desire to learn new skills. I am driven with a clear goal to succeed, always enthused about my work and tasks ahead. I am good at solving problem, to problems old and new, I adjust quick. I do not mind working alone but I prefer working in a team, because we can collaborate and feed off each other's energy and ideas and produce much better and efficiently.

EDUCATION

FEB 2018 –
MAR 2023 Bachelor of Computing (NQF 8) - Major in Software Engineering
Status - Complete

Belgium Campus ITversity
Pretoria

JAN 2012 –
NOV 2016 National Senior Certificate

St. Enda's Secondary
Johannesburg

EXPERIENCE

APR 2023 –
SEP 2023 **DevOps Engineer**
Collaborate with Architects, QA, Security and Developers to design and implement DevOps practices across product delivery. Implement and maintain CI/CD pipelines for product components. Design automated product builds Implement and design automated deployments of product releases to various environments stages. Integrate various tools in the DevOps toolchain to accelerate development teams' velocity while maintaining high standards for quality and consistency. Attend to support tickets, which may arise due to product components not functioning as expected.

Mercedes-Benz
East London

APR 2021 –
MAR 2023 **Full Stack Software Engineer**
Upskilling and integration. Developing full view of the software Engineering cycle and the individual nodes in the chain. From planning, to Backend, API, Frontend and Database Development. Microservices, Containers, Deployments, Message Queues and Cloud platforms. I have hands on experience in all of those, in a real dev to prod setting, including Testing and Operational support.

Mercedes-Benz
East London
